COURSE DESCRIPTION:

Grade Two religion guides the student through preparation for the reception of the Sacraments of Penance and Holy Communion. The law of God and salvation history are given as background for these Sacraments. The course emphasizes God's mercy and His inestimable gift of His Son.

The student, if he was in the Kolbe program last year, has already used the First Communion Catechism, but the repetition is good. Using both of these books, the child will be ready to receive his First Confession and First Communion in the spring. It is advisable for you to have a child's Bible to use in conjunction with the lessons in religion.

Often young children become confused when learning religion. Discussing the material and answering all the questions helps to clear up any misconceptions. At the end of each day or week, have the child give back to you what he has learned. This may take some prompting and questioning, but this is a good way to make sure he has really understood the lesson. As often as possible apply the lessons to the child's life. Use examples and constantly reinforce what he has learned. Have the student memorize the answers to all of the questions. Thoroughly explain their meanings before memorizing. Memorization comes quite easily at this age, and the more the memory is used, the better it becomes. It is good to incorporate art with religion by having the child draw pictures of what he has studied. Telling or reading lives of the saints is especially good for children.

Never underestimate the child's ability to understand and remember the big names of important feasts: Annunciation, Visitation, Presentation, Immaculate Conception, Resurrection, Ascension, Assumption, etc. Avoid confusion by describing what the word means and have him repeat it to you. Drawing pictures of these events as they come up in the liturgical year is also helpful. Repetition is the best way to teach the child new prayers. If he is struggling with a particular prayer, say it every day until it is memorized.

COURSE PLAN METHODOLOGY:

Kolbe Academy has worked diligently to create the best possible course plans with the home schooling family in mind. Remember, however, that our program is intended to be flexible. Per the principle of subsidiarity, these course plans are a **suggested** course of study. As the teacher, you should adapt and modify these course plans to meet the individual learning needs of your child. **Do not feel obligated to follow these course plans exactly.**

The books are abbreviated as follows: *Jesus Our Life*, **JOL**, the *Jesus Our Life Activity Book*, **AB** and the *St. Joseph First Communion*, **SJFCC**. Each weekly assignment is summarized in the first rows of the week's daily course plan along with the goals and notes for that week. The specific daily assignments for the student are

outlined in the following lines indicated by the **DAY 1, DAY 2, DAY 3, and DAY 4** abbreviations. Parent daily guidelines are given to the left of the student assignments. Most families will use Days 1-4 as a Monday through Thursday schooling schedule. This leaves Friday open for review, catch-up, field trips, or other activities. A family's schedule can and should vary as needed.

A weekly grade book is included at the end of the week's course plan *as a convenience*. It includes a cumulative list of written assignments from the week's course plan with point values given as a suggestion. Space for additional assignments, if needed, is included. **Kolbe Academy does not require that you keep record of all student work.** If you intend to report your child's work to Kolbe Academy for an official report card, only one sample of written and graded work is required per quarter for each course along with a report card submission. Parents should use the grade book only as a help to their home schooling and not as hindrance. Point values and weighting are suggested for *convenience* and may be modified, dropped completely, or added to as the parent deems fit. Please consult the welcome packet for a full tutorial on using the grade book.

This religion course contains 36 weeks broken into four 9-week quarters. Week 8 is considered a review week and week 9 is dedicated strictly to examination. Your student may not need all of Week 8 for review. You can use this time to catch up if necessary and then go over the subject matter. **If you intend to use the tests provided, look them over before teaching the subjects and make sure you teach the material in the tests.** Some children have a difficult time doing written exams, but it is important for them to learn how to take them. If your second grader does poorly on them, give them to him orally a couple of days after he has taken them and average the grades.

Finally, begin every class with a prayer. This is a good way to help the child memorize new prayers. Repeat the same ones every day until they are known. Be sure to explain the meanings of the prayers. Repetition in all areas of study is most beneficial.
